

Anatomy and Neuroscience 2016 Seminar Series

Location: Frederic Wood Jones Theatre, Level 3 East, Medical Building

Time: Friday, 4:00 pm - 5:00 pm

Conveners: Dr. Jenny Gunnensen (jenny.gunnensen@unimelb.edu.au)
Dr. Linda Parsons (linda.parsons@unimelb.edu.au)

May
13

A-Prof Amy Brodtmann

Florey Institute of Neuroscience and Mental Health

Vascular determinants of dementia.

Host: Dr Jenny Gunnensen (jenny.gunnensen@unimelb.edu.au)

May
20

Prof Melissa Little

Murdoch Childrens Research Institute

Rebuilding the kidney using stem cells.

Host: Prof Janet Keast (janet.keast@unimelb.edu.au)

May
27

Prof David Gardner

School of BioSciences, University of Melbourne

Metabolism of embryos and stem cells: so much more than ATP.

Host: Dr Simon Murray (ssmurray@unimelb.edu.au)

June
3

Aviv Gafni

Department of Anatomy and Neuroscience

PhD Oration: Snail has a vital role in germline stem cell homeostasis in the *Drosophila* testis.

Host: A-Prof Gary Hime (g.hime@unimelb.edu.au)
