

Webinar Series: Harnessing intelligence to accelerate drug discovery with Integrity and Drug Research Advisor

These webinars aim to discuss how our drug discovery tools, *Integrity* and *Drug Research Advisor (DRA)* can support your research to drive innovation.

Event Details:

Basic (refresher) training (60 min including Q&A)

20th June 2019 (Thursday) | Melbourne | 9 am to 10 am

[Register now](#)

This session will give you a basic overview of *Integrity* and *DRA* and focus on the following:

Integrity:

- A quick search: search for a target (PD-1)
- Competitive intelligence
- Related information

DRA:

- Search by indication (solid tumours)
- Target prioritisation

Advanced training (60 min including Q&A)

4th July 2019 (Thursday) | Melbourne | 9 am to 10 am

[Register now](#)

This session will give you an advanced overview of *Integrity* and focus on the following:

Drugs and Biologics:

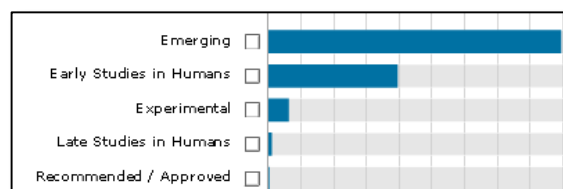

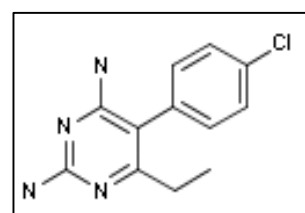

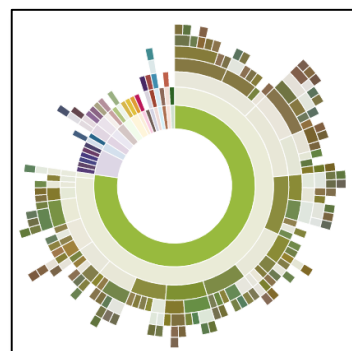

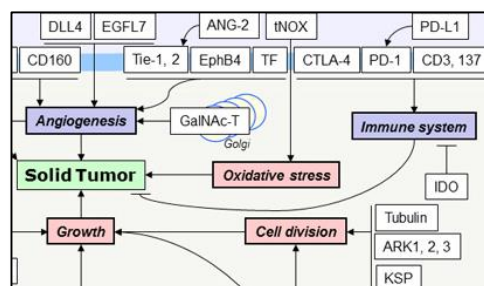

- Search by mechanism of action (PD-1 inhibitors)
- Pharmacokinetics data

Structure search:

- Upload a structure and run a similarity search
- Experimental pharmacology/benchmarking

Biomarkers:

- Biomarkers for PD-1 inhibitors
- Use filters to refine results

Presenter: Shivanjali Joshi-Barr, PhD, Solution Scientist, Life Sciences, Clarivate Analytics |

Host: Maggie Lieu, PhD, Solution Scientist, Life Sciences, Clarivate Analytics
