

Wednesday 1st of August, 12-1pm

Prof Cristina Ugalde

Structural rearrangements of the respiratory chain in cellular models of mitochondrial disease

Universidad Autónoma de Madrid

Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology

Wednesday 1st of August, 12-1pm

Dr Kevin Watt

The Hippo signalling pathway in skeletal muscle

Department of Physiology

Alan Gilbert 109 - Theatre 2

Host - Department of Physiology

Friday 3rd of August, 4-5pm

Dr Elisa Hill

Extracerebral dysfunction in animal models of autism - the curious case of Neuroligin 3 and the gut-brain axis

RMIT

Frederic Wood Jones Theatre, level 3, Medical Building

Host - Department of Anatomy & Neuroscience

Monday 6th of August, 12-1pm

Prof Alistair Stewart
TBC

Department of Pharmacology & Therapeutics, UoM
Rand Theatre, Level 8, Medical Building
Host - Pharmacology & Therapeutics

Tuesday 7th of August, 12-1pm

Professor John Hugenard

Life-long neocortical hypofunction following maternal immune activation

Professor of Neurology and Neurological Sciences, Stanford University School of Medicine

Ian Potter Auditorium, KMB

Host - Melbourne Neuroscience

Wednesday 8th of August, 12-1pm

Dr Claire Tanner

'Please, can you help?': Patients, stem cells and responding to unanswerable questions

Department of Anatomy and Neuroscience

Alan Gilbert 109 - Theatre 4

Host - Department of Physiology

Wednesday 8th of August, 12-1pm

Dr Mark Wickham

Method for the preparation of micro-RNA and its therapeutic application: a discussion of patent law concepts in the context of a patent office decision.

Phillips Ormonde Fitzpatrick

Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology

Friday 10th of August, 4-7pm

Dr David Williams

Snakebite: The World's ignored health crisis.

Department of Pharmacology & Therapeutics

Peter Doherty Centre

Host - Pharmacology & Therapeutics

This is a ticketed event <http://go.unimelb.edu.au/epo6>.

Friday 10th of August, 4-5pm

Dr Ric Natoli

Small Size, Big Possibilities: The use of miRNA in the treatment and management of retinal degenerations

Australian National University

Frederic Wood Jones Theatre, Level 3, Medical Building

Host - Department of Anatomy & Neuroscience

Monday 13th of August, 12-1pm

Prof Johnathan Koff

TBC

Yale

Rand Theatre, Level 8, Medical Building

Host - Pharmacology & Therapeutics

Tuesday 14th of August, 12-1pm

Associate Professor Akhter Hossain

Chemical synthesis and structure-activity relationship studies of insulin/relaxin family peptides

Florey Institute of Neuroscience and Mental Health

Ian Potter Auditorium, KMB

Host - Melbourne Neuroscience

Wednesday 15th of August, 12-1pm

Prof David Gardner

Metabolism and Physiology of the Human Preimplantation Embryo

Department of Zoology

Alan Gilbert 109 - Theatre 2

Host - Department of Physiology

Friday 17th August, 3:30-4:30pm

PhD Oration - Holt Laboratory

Yu Wan

Detecting horizontally co-transferred antimicrobial resistance genes in bacteria using a network approach.

Department of Biochemistry and Molecular Biology, University of Melbourne

Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology

Friday 17th of August, 4-5pm

Dr Quenten Schwarz

Dissecting the sonic hedgehog signalling pathway in interneuron development

University of Adelaide

Frederic Wood Jones Theatre, Level 3, Medical Building

Host - Department of Anatomy & Neuroscience

Monday 20th of August, 12-1pm

Dr Darren Creek

TBC

Monash University Pharmacy & Pharmaceutical sciences

Rand Theatre, Level 8, Medical Building

Host - Pharmacology & Therapeutics

Tuesday 21st of August, 12-1pm

Professor Andres Villu Maricq

Synaptic Signaling: Discovery of a Novel Presynaptic Auxiliary Protein that Regulates the Function of Postsynaptic NMDA Receptors

Founding Director, Center for Cell and Genome, University of Utah

Ian Potter Auditorium, KMB

Host - Melbourne Neuroscience

Wednesday 22nd of August, 12-1pm

Dr Nicola Smith

TBC

Victor Chang Cardiac Research Institute

Alan Gilbert 109 - Theatre 2

Host - Department of Physiology

Wednesday 22nd of August, 12-1pm

A/Prof Stephanie Gras

An investigation of CD4+ TCR recognition of an immunodominant HIV epitope in controller individuals

Department of Biochemistry and Molecular Biology, Monash University

Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology

Friday 24th of August, 4-5pm

A/Prof Justin Rubio

TBA

Melbourne Brain Centre

Frederic Wood Jones Theatre, Level 3, Medical Building

Host - Department of Anatomy & Neuroscience

Monday 27th of August, 12-1pm

Dr Paul Gregorevic

TBC

Department of Physiology, University of Melbourne

Rand Theatre, Level 8, Medical Building

Host - Pharmacology & Therapeutics

Wednesday 29th of August, 12-1pm

Dr Lisa Mielke

Transcriptional networks controlling development and function of intestinal lymphocytes

Olivia Newton-John Cancer Research Institute

Alan Gilbert 109 - Theatre 2

Host - Department of Physiology

Wednesday 29th of August, 12-1pm

A/Prof Tony Kenna

Functional immunogenomic approaches to understand inflammatory pathways in immune-mediated diseases.

School of Biomedical Sciences, Queensland University of Technology, Brisbane.

Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology

Thursday 30th of August, 12-1pm

Dr Senthil Arumugam

Imaging the early events of EGF receptor trafficking using Lattice light-sheet microscopy.

EMBL Australia Node in Single Molecule Science Centre.

Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology
