

## Seminar Series - 2017

When: Monday 31<sup>st</sup> JULY @ 12:00 pm

Where: Rand Theatre, Level 8, Medical Building

# *“Translating novel target biology into new cancer therapeutics: the CTX model”*

**Dr Mark Devlin**

*Peter MacCallum Cancer Centre*

After obtaining a PhD in Pharmacology from the University of Melbourne, Mark has worked in a variety of roles focused on academic-based drug discovery and development in a number of therapeutic areas including, pain, inflammation, autoimmune disease and oncology. Mark joined Peter Mac in 2008 to head the CRC for Cancer Therapeutics (CTX) Translational Research Laboratory where Peter Mac scientists, working as part of a larger multi-disciplinary team, are involved in the development and validation of small molecule therapeutics for a variety of cancers.
