

**School of
Biomedical
Science**

**March Seminars 2018
Week starting
Thursday 1st - Friday 2nd**

Thursday 1st of March, 12pm

Prof Axel Kallies

TBC

Department of Microbiology and Immunology

PDI Auditorium

Host - Department of Microbiology and Immunology, Dr Alexandra Corbett

Friday 2nd of March, 12-1pm

Dr Naomi Wray

TBC

IMB & QBI, University of Queensland

FW Jones Theatre, Medical Building

Host - Melbourne Integrative Genomics (MIG)

Friday 2nd of March, 3:30-4:30pm

PhD Oration - Bogoyevitch Laboratory

Vincent Tano

Transcriptional regulation and functional differences driven by STAT3 spliceforms, STAT3 α and STAT3 β

Department of Biochemistry and Molecular Biology, University of Melbourne

Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology

Please check the School of Biomedical Sciences website for updates

<http://biomedicalsciences.unimelb.edu.au/>

Monday 5th of March, 12-1pm

Dr James Ryall

The Molecular Signature of Muscle Stem Cells is Driven by Nutrient Availability and Innate Cell Metabolism

Department of Physiology, University of Melbourne

Rand Theatre, Level 8, Medical Building

Host - Pharmacology & Therapeutics

Tuesday 6th of March, 1-2pm

Dr Sophia Luikinga

The effects of methamphetamine on adolescent brain and behaviour- insights from a preclinical model

Florey Institute of Neuroscience and Mental Health

Ian Potter Auditorium, Kenneth Myer Building

Host - Melbourne Neuroscience

Wednesday 7th of March, 12-1pm

Dr. Justin Hardee

Muscle Inflammatory Signaling Regulation of Eccentric Contraction-Induced Protein Synthesis During Cancer Cachexia

Department of Physiology

Alan Gilbert 109 - Theatre 2

Host – Department of Physiology

Friday 9th of March, 4-5pm

PhD Oration

Xin Yi Choo

Development of Therapeutic Approaches for the Treatment of Alzheimer's Disease

Department of Pharmacology & Therapeutics, UoM

Rand Theater, Level 8, Medical Building

Host - Pharmacology & Therapeutics

Wednesday 14th of March, 12-1pm

Department of Biochemistry and Molecular Biology- Post doc talks

Dr Nishma Gupta

Role of O-GlcNAc glycosylation in dendritic cells.

Dr Catharine Palmer

Super-resolution imaging of mitochondrial inner membrane complexes.

Department of Biochemistry and Molecular Biology, University of Melbourne
Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology

Wednesday 14th of March, 12-1pm

Prof. David Gardner

Metabolism of the preimplantation embryo; So much more than ATP

Department of Zoology

Alan Gilbert 109 - Theatre 2

Host – Department of Physiology

Thursday 15th of March 12-1 pm

Prof Mark Febbraio

IC7: a designer gp130 receptor cytokine for the treatment of metabolic disease

Garvan Institute of Medical Research

PDI Auditorium

Host - Department of Microbiology and Immunology, Prof Axel Kallies

Friday 16th of March, 12-1pm

Dr Alex Andrianopoulos

TBC

School of BioSciences, University of Melbourne

FW Jones Theatre, Medical Building

Host - Melbourne Integrative Genomics (MIG)

Friday 16th of March, 4-5pm

Dr Jon Cleary and Dr Alice Brandli

TBC

Department of Anatomy & Neuroscience, The University of Melbourne

Frederic Wood Jones Theatre, level 3, Medical Building

Host - Department of Anatomy & Neuroscience

Wednesday 21st of March, 12-1pm

Prof Cristina Ugalde

TBC

Universidad Autónoma de Madrid

Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology

Wednesday 21st of March, 12-1pm

Prof. Joel Bornstein

Neuroplasticity in the gut: The reproductive cycle and gastrointestinal behaviour

Department of Physiology

Alan Gilbert 109 - Theatre 2

Host – Department of Physiology

Friday 23rd of March, 3:30-4:30pm

Phd Oration, Gleeson Laboratory

Anson Tan

TBC

Department of Biochemistry and Molecular Biology, University of Melbourne

Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology

Friday 23rd of March, 4-5pm

Dr Mark Green

TBC

Bioscience 4, The University of Melbourne

Frederic Wood Jones Theatre, level 3, Medical Building

Host - Department of Anatomy & Neuroscience

Monday 26th of March, 12-1pm

Dr Tony Velkov

TBC

Department of Pharmacology & Therapeutics, University of Melbourne

Rand Theater, Level 8, Medical Building

Host - Pharmacology & Therapeutics

Tuesday 27th of March, 1-2pm

Dr Robert Bowser

ALS biomarkers: A tale of –omics and artificial intelligence technologies to discover biomarkers and gain mechanistic insights to ALS

Barrow Neurological Institute (BNI) and St. Joseph's Hospital and Medical Center, Arizona, USA

Ian Potter Auditorium, Kenneth Myer Building

Host - Melbourne Neuroscience

Wednesday 28th of March, 12-1pm

PhD Oration, Parker Laboratory

Karen Cheung Tung Shing (Steffi)

TBC

Department of Biochemistry and Molecular Biology, University of Melbourne

Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology

Wednesday 28th of March, 12-1pm

Dr. David Elliott

Pluripotent stem cell models of human cardiovascular development and disease

Murdoch Children's Research Institute

Alan Gilbert 109 - Theatre 2

Host – Department of Physiology
