

Friday 1st September, 12-1pm

Jemma Geoghegan

Predicting pandemics amidst evolutionary noise: the evolution and emergence of infectious disease

Macquarie University

FW Jones Theatre

Host - Centre for Systems Genomics

Friday 1st September, 4-5pm

Dr Livia Carvalho

Gene therapy for retinal degeneration: how to make it viral

Centre for Ophthalmology and Visual Science, UWA

Frederic Wood Jones Theatre, Room E307, Medical Building 184

Host - Department of Anatomy and Neuroscience

Tuesday 5th September, 1-2pm

Dr. Tu Nguyen-Dumont

Improving the lives of women at high-risk of breast cancer: towards evidence-based panel testing

Monash University

The Rand Theatre, N817, Level 8 North

Host - Department of Physiology

Wednesday 6th September, 12-1pm

PhD Oration, Hill Laboratory

Wenting Zhao

Investigating the functional role of miRNA in prion disease.

Department of Biochemistry and Molecular Biology

Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology

Thursday 7th September, 12-1pm

Dr Daniel Fernandez Ruiz

Liver resident memory T cells can be harnessed for a malaria vaccine of unprecedented efficacy

Department of Microbiology and Immunology

PDI Auditorium

Host - Department of Microbiology and Immunology

Friday 8th September, 12-1pm

Kiyomet Bozaoglu

Are we on TRAK with understanding complex disease genetics?

MCRI

FW Jones Theatre

Host - Centre for Systems Genomics

Friday 8th September 4-5pm

PhD Oration

Farnaz Shapouri

Role of Tob1 protein in gametogenesis

Department of Anatomy and Neuroscience

Frederic Wood Jones Theatre, Room E307, Medical Building 184

Host - Department of Anatomy and Neuroscience

Monday 11th September, 12-1pm

Dr Craig Morton

CDCs: The 'Hole' Story

St Vincent's Institute of Medical Research

Rand Theatre, Level 8 North, Medical Building

Host - Department of Pharmacology and Therapeutics

Tuesday 12th September, 1-2pm

Dr. Jeff Liddell

Targeting endogenous antioxidants for the treatment of neurodegeneration

Department of Pathology

The Rand Theatre, N817, Level 8 North

Host - Department of Physiology

Wednesday 13th September, 12-1pm

PhD Oration, Cheng Laboratory

Gahana Advani

A biochemical and regulatory study of the tumour suppressor: Csk homologous kinase.

Department of Biochemistry and Molecular Biology

Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology

Friday 15th September, 12-1pm

Kim-Anh Lê Cao

TBC

Centre for Systems Genomics, UoM

FW Jones Theatre

Host - Centre for Systems Genomics

Friday 15th September, 3:15-4:15pm

PhD Oration

Jason Kwong

The clinical application of whole-genome sequencing to the surveillance, understanding and control of bacterial infectious diseases in Australia

Department of Microbiology and Immunology

PDI Auditorium

Host - Department of Microbiology and Immunology

Friday 15th September, 4-5pm

Dr Alice McGovern

TBC

Department of Anatomy and Neuroscience

Frederic Wood Jones Theatre, Room E307, Medical Building 184

Host - Department of Anatomy and Neuroscience

Monday 18th September, 9am-2pm

Therapeutic Technologies, Stem Cells and Drug Discovery

<http://go.unimelb.edu.au/rse6>

Auditorium, Kenneth Meyer Building (Registrations essential)

Hosts- Therapeutic Technologies Hallmark and the Centre for Stem Cell Systems

Tuesday 19th September, 1-2pm

Prof. Peter Currie

TBC

ARMI

The Rand Theatre, N817, Level 8 North

Host - Department of Physiology

Wednesday 20th September, 12-1pm

Post Doc series

Dr Belinda Michell

TBC

& Dr Dezerae Cox

Understanding how proteome foldedness changes under proteostasis stress

Department of Biochemistry and Molecular Biology

Bio21 Institute Auditorium

Host-Department of Biochemistry and Molecular Biology

Wednesday 20th September, 1-2pm

Assoc. Prof. Paul Lockhart

Understanding the cause of childhood brain malformations

Murdoch Children's Research Institute

Venue TBC

Host - Department of Pathology

Thursday 21st September, 12-1pm

Dr Hamish McWilliam

TBC

Department of Microbiology and Immunology

PDI Auditorium

Host - Department of Microbiology and Immunology

Friday 22nd September, 12-1pm

Stuart Mazzone

The neurobiology of respiratory sensations: Implications for pulmonary disease

Department of Anatomy & Neuroscience

Rand Theatre, Level 8 North, Medical Building

Host - Department of Pharmacology and Therapeutics

Friday 22nd September, 3:15-4:15pm

PhD Oration

David Yurick

TBC

Department of Microbiology and Immunology

PDI Auditorium

Host - Department of Microbiology and Immunology

Friday 22nd September, 4-5pm

PhD Oration

Shaghayegh (Sherry) Saeidi

TBC

Department of Anatomy and Neuroscience

Frederic Wood Jones Theatre, Room E307, Medical Building 184

Host - Department of Anatomy and Neuroscience

School of
Biomedical
Science

Department Seminars 2017
September - Week starting
Monday 25th - Friday 29th

Monday 25th September, 12-1pm

Dr Helene Jousset

High Throughput Screening: A pivotal technology for the translation of academic research into early drug discovery

Walter Eliza Hall Institute

Rand Theatre, Level 8 North, Medical Building

Host - Department of Pharmacology and Therapeutics

Tuesday 26th September, 1-2pm

A/Prof Enzo Porello

The ontogeny of cardiac regeneration

MCRI

The Rand Theatre, N817, Level 8 North

Host - Department of Physiology

Wednesday 27th September, 12-1pm

Dr David Thal

Exploring conformational landscapes of muscarinic acetylcholine receptors

Monash Institute of Pharmaceutical Sciences, Monash University

Bio21 Institute Auditorium

Host - Department of Biochemistry and Molecular Biology

Please check the School of Biomedical Sciences website for updates
